

2018 Smart Home Trends

Connected devices create a safe, comfortable and convenient home

Philips Hue White Starter Kit:

Home lighting system that provides homeowners with remote lighting control, as well as scheduling and dimming options from compatible devices while away from home or when in the same room.

Ring Video Doorbell 2:

Doorbell upgrade that allows homeowners to see, hear and speak to anyone at their front door.

Motorola Orbit Camera:

Battery operated, wire-free home security system that can be set up inside and/or outside the home and monitored via Wi-Fi on multiple devices.

Google Home:

Voice-controlled home speaker that serves as the control hub to remotely manage other accessories that control a home's temperature and lighting.
